Basic Information

- Place of Origin: China Guangzhou
- Brand Name: LZR
- Certification: CE
- Model Number: P6
- Minimum Order Quantity: 1
- Price: confer
- Packaging Details: Standard export packing
- Delivery Time: 5-8days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 Piece/Pieces per Month

Product Specification

- Name: Fractional Laser Machine
- Energy Density: $\leq 0.6 \text{ J/cm}^2$
- Spot Size: 2-10 Mm
- Voltage: AC220V $\pm$ 10% 50Hz, 110V $\pm$ 10% 60Hz
- Wave Length: 1064nm, 532nm
- Other Name: Picosecond Laser
- Laser Power: 2700W
- Rf Frequency: 2M
- Screen: 12inch
- Highlight: two wave Fractional Laser Machine,
CE Picosecond Laser Device,
two wave Picosecond Laser Device

Product Description

Advanced Laser Beauty Machine With Energy Density $\leq 0.6 \text{ J/Cm}^2$ And Maximum Energy Of 2000M

Product Description:

The Fractional laser machine is equipped with two wave lengths, 1064nm and 532nm, which can effectively remove all kinds of tattoos with different colors. The machine can also use the 1064nm wave length to treat pigmentation, birthmarks, and other skin issues. The 532nm wave length can treat red and brown pigments on the skin.

The Picosecond Laser Machine is compatible with both AC220V $\pm$ 10% 50Hz and 110V $\pm$ 10% 60Hz voltages, making it perfect for use in different parts of the world. Additionally, the machine features an adjustable diode aiming beam (655 Nm Red) that can be turned on and off as needed.

The machine is designed for use in both professional and personal settings, making it ideal for spas, salons, and clinics. It is also easy to operate and maintain, with a user-friendly interface that allows for precise control over the treatment process.

Overall, the Superpicosecond freckle machine is a powerful and reliable tool for anyone looking to offer effective skin tightening and tattoo removal treatments. With its advanced features and high-quality design, it is sure to provide excellent results for years to come.

Features:

Product Name: Picosecond Laser Machine

Maximum Energy: 2000M

Touch Screen Size: 12 Inch

Voltage: AC220V $\pm$ 10% 50Hz, 110V $\pm$ 10% 60Hz

Rf Frequency: 2M

Spot Size: 2-10 Mm

This Picosecond Laser Machine features maximum energy of 2000M, a 12 inch touch screen size, and a spot size of 2-10mm. It operates at a voltage of AC220V $\pm$ 10% 50Hz, 110V $\pm$ 10% 60Hz and has an Rf frequency of 2M. This DPL Laser Machine is perfect for Fractional infrared laser skin tightening.

Technical Parameters:

Laser Power	2700W
-------------	-------

Aiming Beam	Diode 655 Nm (Red), Adjustable Off/on
Energy Density	$\leq 0.6 \text{ J/cm}^2$
Feature	Skin Tightening, Tattoo Removal
Screen	12inch
Light Source	ND:YAG Solid Laser
Wave Length	1064nm, 532nm
Other Name	Picosecond Laser
Spot Size	2-10 Mm
Touch Screen Size	12 Inch

This table shows the technical parameters for the Picosecond Laser beauty machine, which is also known as the Fractional infrared laser skin tightening or Aesthetic Laser Machine. The laser power is 2700W and the aiming beam is a diode 655 Nm (Red) that can be adjusted on and off. The energy density is $\leq 0.6 \text{ J/cm}^2$ and the machine features skin tightening and tattoo removal. The screen size is 12 inches and the light source is an ND:YAG solid laser with a wavelength of 1064nm and 532nm. The spot size is 2-10 mm and the touch screen size is also 12 inches.

Applications:

One of the key features of the LZR P6 is its powerful laser pulse technology. This pico laser is capable of delivering laser pulses that are just a few trillionths of a second in duration, making it one of the most powerful and precise aesthetic laser machines available. Additionally, the LZR P6 features a large 12-inch screen that makes it easy to monitor and adjust your treatment settings. The LZR P6 is also incredibly versatile, thanks to its dual wave length capabilities. With both 1064nm and 532nm wave lengths, this laser machine can be used to treat a wide range of skin types and conditions. Whether you are looking to perform fractional infrared laser skin tightening, or simply want to reduce the appearance of freckles and other pigmentation issues, the LZR P6 has you covered. Overall, the LZR P6 Picosecond Laser Machine is an excellent choice for anyone looking for a powerful and versatile aesthetic laser machine. Whether you are a medical professional looking to expand your practice, or simply want to perform high-quality skin treatments at home, the LZR P6 is the perfect choice.

PRODUCT DETAILS

Learn more about the product

01

Cryogen Based Dynamic Cooling Device Handpiece, Comfortable for treatment

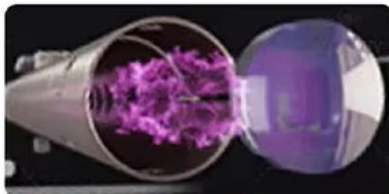

Shooting 40 Million for longer lifetime

02

1.5 to 26mm Spot Sizes

Especially spot sizes 1.5, 3.0, 24, 26mm can be provided as demands

Suitable different parts treatment, treatment faster and save time

03

USA imported lamp and rod

Original USA imported lamp and rod , Energy more stronger, Energy output stable

04

Air Cooled Compatible Handpiece

This device promote patient comfort by directing cold air to the treatment area

Support and Services:

The Picosecond Laser Machine is a cutting-edge device that delivers high-performance laser treatments for a wide range of applications. Our technical support and services team is dedicated to helping you get the most out of your laser machine, and we offer a comprehensive range of support options.

Our team of highly trained technicians is available to provide technical support and troubleshoot issues you may encounter with your laser machine. We also offer regular software updates to ensure that your machine is running the latest and most efficient software.

In addition, we offer training and education services to help you master the use of your Picosecond Laser Machine. Our experts can provide on-site training, online training, and even personalized training to meet your specific needs and requirements.

With our product technical support and services, you can be confident that your Picosecond Laser Machine will perform at its best, delivering the highest quality results for your business or organization.

Packing and Shipping:

Product Packaging:

1 Picosecond Laser Machine

1 Power Cord

1 Foot Pedal

1 Pair of Safety Goggles

1 User Manual

Shipping Information:

Shipping Method: UPS Ground

Shipping Cost: \$50

Expected Delivery Time: 3-5 business days

FAQ:

Q: What is the brand name of the laser machine?

A: The brand name of the laser machine is LZR.

Q: What is the model number of the laser machine?

A: The model number of the laser machine is P6.

Q: Where is the laser machine manufactured?

A: The laser machine is manufactured in Guangzhou, China.

Q: What type of laser technology does the machine use?

A: The machine uses picosecond laser technology.

Q: What are some of the applications of the laser machine?

A: The laser machine is commonly used for tattoo removal, acne scar treatment, pigmentation removal, and skin rejuvenation.
